INDULGE YOUR
GUESTS IN LUXURY
COTTON AND MAKE
CHANGE HAPPEN
OVERNIGHT...

The Natural Cotton Company is an authentic luxury brand that delivers beautiful products made from sustainable cotton to the hospitality sector. We promise an honest and fair price for everyone from the cotton field to the buyers of the finished products.

The Natural Cotton Company offers bespoke organic GOTS certified products made with Fairtrade Cotton. Thread count, weight, and custom design, including; embroidery, bands, lace, pleats and company logos can all be tailored to your specific needs. Our classic style and ethical supply chain mean your customers can sleep soundly in timeless, sustainable luxury.

All of the cotton is Fairtrade certified, traded, audited and sourced from Fairtrade producers. Fairtrade means fairer trading conditions and opportunities for cotton producers in developing countries to invest in their businesses and communities for a sustainable future.

OUR MISSION

The Natural Cotton Company's mission is to deliver the highest quality luxury cotton essentials to hotels and spas around the globe – in a way that does not impact negatively on people and the planet.

The Natural Cotton Company is inspired and motivated by love of nature, respect for the earth and the people in it. We believe that this respect does not need to be an obstacle to business success – but help generate its success.

The journey from seed to sheet.

Our products are ethically and organically sourced; they are made from 100% organic GOTS certified and from 100% Fairtrade certified cotton.

Our products are manufactured to the highest standard in certified factories. The result is exceptionally high quality cotton products.

WHY NATURAL COTTON?

Cotton, the most abundant natural fiber supporting livelihoods of over 350 million people, has several serious environmental and social challenges related to it. These include the over-use of pesticides and fertilizers, the rising costs of production and volatile market prices. Fairtrade and GOTS certified cotton promotes biodiversity and farmers are paid at or above the living wage and a premium, which provides health and education programmes.

As well as a fair wage and good working conditions, research shows that organic cotton has several social and environmental benefits, including using 91% less water from natural rivers and streams than conventional cotton, contributing 70% less to acidification of land and water and using 62% less energy than conventional cotton.

The entire production chain is monitored from beginning to end. The Natural Cotton Company is one of the first of its kind and sells to a global market of luxury hotels, spas and yachts.
