## CUSTOMIZED BERBER RUGS

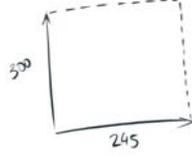

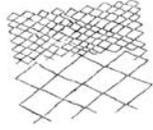

Although the exceptional motifs of vintage Berber rugs rank them among the masterpieces of tribal and nomadic culture, their traditional dimensions make them sometimes difficult to adapt to our interiors and their value makes them less and less accessible. That is why Rugs&Sons now offer our clients custom-made rugs with modern designs, inspired by the most beautiful pieces of our collection.

Our carpets are traditionally handmade by Berber women in the Moroccan Middle Atlas Mountains. Their superior quality is based on a dense and precise knotting as well as the use of the best mountain wool available.

## PATTERNS

Our customized rugs are inspired by the most beautiful pieces of our Exclusive collection. We offer you a wide range of patterns that can be slightly modified. It is, however, important to know that handmade Berber rugs are a craftwork where the womens personal creativity has a strong artistic impact on each project. Needless to say, we communicate very thoroughly with the producers and we always try to get as accurate as we can regarding the clients demands. Nevertheless, this is the true beauty of handmade Berber rugs.

## SAMPLES

In the world of decoration, regardless if you buy that new stunning color for your living room wall, the amazing wallpaper for your daughters bedroom or those beautiful ceramic tiles for the kitchen floor, you often have the possibility to see a sample of the product. But never with rugs - until now.

Rugs&Sons offer you as a professional the opportunity to buy **1m<sup>2</sup> (3' x 3')** samples with the same amazing quality as the final product. This is a way to gather several pieces in your shop/showroom without taking an excessive financial risk.

To be able to show your client a sample of the product is a perfect way to feel the quality of the wool, experience the height of the pile and see the actual colors.
