2020.07

STEFAN ZOELL, DESIGNER

„The sit-stand theme always refers to healthy sitting, the sitting behaviour. Shouldn't this better be a physical behaviour? In anthropogenesis, the upright walk is what makes a person special. My Concept focus the entire working area of a sit-stand workstation and promote active body behaviour.“

SWIVEL CHAIR WITH STANDING AID FUNCTION
sitting, stand-sitting, supporting, standing

JURY GERMAN DESIGN AWARD 2019

„Thanks to the cleverly designed mechanism, the backrest of the innovative office chair can quickly be converted to a seat and vice versa, providing a variety of sitting options to keep the body in motion. A casual chair for a relaxed, lively atmosphere in the workplace.“
