

**STERILOC  
@ KINGS CROSS, LONDON**

Steriloc Sentinel Pro

Steriloc Sentinel Pro - powder coated

**SHOPPING CENTRES** Allowing all customers to sanitise their hands quickly and effectively to enter a store.

**HEALTHCARE** Properly sanitising the hands mitigates cross contamination between staff and patients in higher risk healthcare environments.

**CONSTRUCTION** Robust all-weather battery operated Steriloc systems can provide hand sanitisation outdoors on building sites.

**EDUCATION** Prevents the spread of germs and encourages awareness of hand hygiene. Cuts down on absence through illness.

**HORTICULTURE** Steriloc ensures higher standards and disciplines for disease and viral control, protecting the profitability of horticultural businesses.

**FOOD PROCESSING** When linked to turnstiles and doors, Steriloc ensures mandatory compliance in this high risk industry.

**PLAYGROUNDS** Steriloc's bright, colourful and child friendly sanitising stations are designed to be easy, safe, weatherproof and accessible to all.

**OFFICES AND RECEPTIONS** From reception desks to unmanned entrances, Steriloc provides hand sanitisation for all your employees and visitors.

**ESTATE AGENTS** Steriloc's quick and efficient sanitisation is ideal for open house viewings.

Steriloc Sentry

## Why Steriloc?

**Quick** - sanitise up to 30 people a minute. Up to 25k dispenses between refills

**Absenteeism** - Steriloc can potentially reduce workplace illness

**Easy install** - easily mounted on a wall, counter top or left freestanding. A unit can be installed at any entrance

**Weatherproof** - all units can be used indoors and outdoors\*

**Personalise** - chose between powder coated and stainless steel or add your company branding to the Steriloc unit.

\*Except units with internal reservoir

**Secure** - be confident that access is only gained once both hands have been sanitised. When linked to access, Steriloc ensures mandatory user compliance

**Cost effective** - each dispense can cost less than 1p. The lockable unit also prevents sanitiser theft

**Environmentally friendly** - precision dosing ensures less waste per use. There is no need for paper towels and no plastic bottle waste

**Power options** - all units can be 110v to 240v AC, POE or battery powered

**Wi-Fi connected** - each Steriloc unit may be Wi-Fi enabled, allowing email notifications to monitor usage and sanitiser levels\*\*
