

INTRODUCING

THE ART OF CRAFT

WHO ARE LINEA LUXE

Linea Luxe believe that all life's greatest luxury products can only be crafted by hand. Attention to detail, care and respect for how we treat our creations and patience to allow the masterpiece to develop.

Our experienced team works with the best tools and latest technology yet employ traditional techniques learnt from a lifetime of experience. Every piece that leaves our workshop carries with it our pride and commitment that it has been produced in the best possible way.

It is for this reason we offer a lifetime guarantee on all our creations.

We make all the structures of our furniture in sustainably sourced European Beechwood.

Each batch is carefully kiln dried to leave the wood with about 20% moisture ensuring it is strong and flexible.

All frames are robustly crafted and all seating elements are fully sprung using serpentine springs.

Fabrics are then manually checked before being hand cut to ensure the 'dress' is perfect and the overall tailoring to the highest possible standards.

The final stage is to dress the furniture and create the unique and luxurious finishing effects such as deep buttoning, piping, pulling and stitching.

All work then undergoes a thorough quality control before being wrapped and ready for delivery.
