

# GREASE HOG

## GREASE PROOF TRACTION

### Features and Benefits:

- A. For use in greasy environments such as kitchens to stop oil and grease being tracked onto surrounding floors which may stain dining room floors and cause slip and fall hazards
- B. Grease-proof nitrile rubber backing and solution dyed fabric will not fade or rot
- C. Bi-level construction with reinforced rubber nubbed surface provides an anti slip, scraper surface and prevents the pile from crushing
- D. Low profile fabric surface for easy cleaning and quick drying. Mild detergent and hot water can be brushed in with a broom and the mat then hung to dry
- E. Borders are reinforced, low profile and bevelled to allow smooth transition of carts and traffic
- F. Heavy construction and anti slip backing help the mat resist movement
- G. Two different backings for carpets and hard floors. Choose gripper backing for carpets and flat back for hard floors
- H. Charcoal colour hides stains until mat can be cleaned

### Specifications:

Face: Solution dyed polypropylene  
Back: Nitrile Rubber  
Mat Height: 8mm  
Size variation: +/- 2%

### Size available (cm):

89 x 149
