

EXPERTS IN SUSTAINABLE HOSPITALITY

ECOTEL CONSULTANCY

Introduction

Ecotel Consultancy is specialized in sustainability consulting and ecolabelling/certification guidance for hotels, offering different services with a strong focus on the three pillars of sustainability: economics, ecology and local community.

We believe sustainability is no longer a luxury but rather a necessity. By educating staff and guests, implementing sustainable practices and creating valuable partnerships, a true long-lasting impact can be achieved.

With our expertise in sustainable hospitality, we want to create this impact together with our clients by providing a personal approach and step-by-step plan. We guide you towards a resilient and sustainable future.

How can we help?

- You want to be **sustainable** but you have no idea how to start.
- You are looking for guidance to reduce (food) **waste**.
- You are looking for ways to **educate your guests** about sustainability.
- You want to get certified with an international recognized **ecolabel**.
- You are building/renovating a hotel and need help to decide on which sustainable **equipment and systems** should be bought.
- You want a **complete screening** of the hotel in terms of sustainability.
- You want to link your sustainability efforts to the **SDGs**.
- You want to create **internal policies and procedures** for sustainable sourcing, waste/energy/water management, garden watering, ...

Sustainability in the (luxury) hospitality sector

We create value for all the **key stakeholders** through the implementation of sustainability in all the revenue creating operations with respect to the expected service level.

Sustainability services for hotels

Sustainability consulting

We will look at the current processes and products of your hotel to identify more sustainable opportunities that are also cost-efficient. Several alternatives will be evaluated and offered so you can make an informed choice that fits your hotel and its practices best.

Certification Guidance

Getting eco-certified is a credible and trustworthy way of showing your guests and corporate clients your commitment towards sustainability. Unfortunately, this can be very time-consuming and cumbersome. We guide your hotel from start to finish with the ecolabel that has most impact for you and aligns best with your hotel's values.

Food Waste Audit

Preventing food waste should be one of your top priorities. Food cost accounts for around 25% of a hotel's revenue, an enormous percentage. With our help, this food cost can be reduced which translates in huge savings and a growing profit.
