RECLAIMED WOOD DINING TABLES

Choose your table top

1

Our sales team will propose you several table tops to choose from depending on the dimensions, wood or the use you will make of it.

Our table tops are made of elm, teak, poplar, ironwood... (depending on the available stock). They are all made from reclaimed Chinese doors, bleached and sandblasted. For this reason most of them wear marks of their previous life : traces of metal locks, hinges or handles..

Choose your leg type

We have several styles of metal legs available. They can also be custom made. The pre-assembly will be carried out in our showroom before shipping.

2

Waterproof your table top

3

For daily use we can apply a waterproofing treatment with a matte and colorless marine varnish (from 50 € excl. VAT depending on the size of the table top).

The table top should be waterproofed at least once per year. Upon request we can also provide a 500 ml can of waterproofing product for 35 € excl. VAT.

BESPOKE DINING TABLES

You have a specific project and / or would like to have a reclaimed wood dining table with wooden legs ? Send us your sketch and dimensions ! We'll produce one for you.
