Must Have Bins are a home accessories design studio based in London.

We work on interior design projects in Europe, the UAE and beyond. We are able to work as part of a procurement service for new projects, or liaise directly with hotel management to supply specially commissioned room accessories.

We draw on over a decade of close relationships with skilled craftspeople across the globe, designing and supplying bespoke bins, bathroom sets, trays, desk accessories and luggage racks.

Our handmade accessories are available in a range of luxury materials, including wood, metal, leather, steel, inlay, rattan, cut crystal, fabric and attractive faux animal finishes. We can provide bespoke designs that compliment your colour scheme, reflect your branding and complete a space.

We'd be delighted to talk through how we can help with your hotel design. We look forward to the opportunity of working together.
