

Functions and Characteristics

CK06 is CKO first white color single type power netbox. Customers do not need to cut hole or modify their furniture. The power netbox can be installed over the grommet, under the desk or at the side of the desk with the provided mounting brackets. The power connection of the power netbox can be connected in series to each other by using an inter-connecting cable to minimize the power outlets and save cables. With its tiny shape and simple design, this power netbox not only can be used at the office environment, but also in households. CK06 has already been approved with UL, 3C, CE & RoHS certification.

The length and modules of the power netbox can be customized with country specific power modules, various types of network cables, telephone cables, VGA, HDMI, video, audio, USB data or charging and overcurrent protection modules in any combination.

Specification [Reference Data](#)

- Model Series: CK06
- Product Name: Single Type Power Netbox
- Configuration: 2 UK power, 1 dual USB charger
- Longest Size: 7 modules
- Shortest Size: 2 modules
- Dimensions: 175W x 91D x 65.5H mm
- Rated Current: 10A
- Rated Power: 1100W/110V
2200W/220V
