Our brand

- **What is Tios?**

Tios is a range of hard teas that aims to combine people's love for easy to drink cocktails and tea with sleek Danish design. All three flavours have been tried and tasted and the feedback has been great so far.

- **Who is Tios for?**

Tios is for the mindful pleasure-seeker, people who want to find a good balance in what they consume without compromising on taste.

- **Why 'Tios'?**

Tios (like 'Tea-ose') is inspired by our family, our travels, with a Danish, British & French touch. Tios inspired by the Spanish 'Tíos' for 'uncles' and is in honour of our family tradition of Margarita night.

- **When/where can Tios be enjoyed?**

Tea time? Cocktail time? Why not both? Too early to get the shaker out? Fed up with the usual G&T? Not inspired by hard seltzers? Tios is great for all occasions. Ready to drink & delicious straight from the can in a restaurant, in the spa, with a take-away, on the dance floor, at a picnic with friends, or poured over ice.
