# WELCOME TO VERDEN

Meaning 'the world' or 'the earth' in Danish, VERDEN is a natural fragrance brand for bath, body and home.

*"Natural fragrance rituals connect us to our breath and the earth. They let us feel elemental joy by uniting mind and body." Co-founder, Charlotte Semler*

VERDEN is inspired by the focal role of nature in Charlotte's Danish childhood memories. On returning to her family beach house after decades away, she realised that it was the immersion in unchanging nature – water, landscape and fragrance, as much as the endless summer light – that brought her back to happiness.
