AMOVINO

ABOUT US

Amovino is all about love. It encompasses love for oneself, nature, people, self-expression, and the intricacies that define us as individuals. We specialize in crafting interior design pieces for discerning aesthetes.

Our philosophy revolves around preserving timeless values through the use of natural materials and exploring innovative ways to incorporate them into everyday household items.

OUR HISTORY

Our brand's origins trace back to 2014 when it was initially established as a wine school under the same name. 'Amo vino,' directly translated from Italian, means 'I love wine.'

Over time, the captivating beauty, philosophical depth, and aesthetic allure of this beverage inspired us to venture into the realm of interior design. Each of our products subtly embraces the essence of wine.

OUR VALUES

Eco-friendliness without hypocrisy is at the core of our ethos. All the accessories we meticulously craft are made from natural materials like solid wood, metal, and ceramics. While the coatings and additional details we use may not be 100% ecological, they ensure the durability and suitability of each item for specific conditions. Additionally, they can be restored in case of damage, striking a harmonious balance between nature, economy, and human needs.

An intelligent approach governs every aspect of our work. We collaborate with local industrial workshops to support small businesses and maintain strict quality control over our batches, steering clear of excessive production. It is crucial to create new and beautiful designs without succumbing to overproduction.

Universality is key in our creations. Each item is crafted without conforming to fleeting trends or particular styles, instead addressing the needs of the modern individual.

We believe in embracing only the essential. Crafting each item extends far beyond expanding our product line; it entails dedicated research, testing hypotheses, and sourcing optimal materials. We meticulously select a limited range of textures suitable for each individual piece.

INTERIOR DIFFUSER and CANDLES

The aromas of AMOVINO, inspired by grape beverages, possess a remarkable ability to pacify, relax, soothe, and awaken pleasant feelings and cherished memories. The scent collection, much like the rest of the products, seamlessly integrates into its unique identity. The combination of thoughtful design and functionality makes the diffuser and candle serve as decorative items in their own right.

INTERIOR DIFFUSER

The interior diffuser seamlessly complements the overall concept of the space, adding a touch of understated elegance without creating any visual noise. The design of the decorative part draws inspiration from the graceful silhouette of a wine bottle, beautifully crafted from solid ash in both natural and black color variations.

The diffuser can be easily replenished by refilling the liquid, which can be conveniently purchased separately as needed.

With a volume of 100 ml, the diffuser offers a lasting fragrance experience for 5-6 months within a space of up to 20 sq.m.

SCENTED CANDLES

AMOVINO's scented candles exude a unique radiance as they gracefully rest in their designer crystal glass holders. We purposefully omitted the logo on our candles, allowing the focal point to remain on the essential elements. As the flame flickers within the glass, it casts a mesmerizing glow that dances along the edges, evoking the ambiance of a setting sun gracefully caressing the surface of a table.

After the candle runs out, the glass can be used for any drinks or other purpose.

The candles are available in two volumes: 250 ml (burn time approx. 40 hours) and 300 ml (burn time approx. 60 hours).

AMOVINO

AMOVINO is a growing brand. We are constantly developing new products, and we are open for ideas and a potential collaboration.

Depending on the products availability at the time of the order delivery might take 4-8 weeks.

The price list is available upon request.
